UID EX 7 – FITNESS TRACKER MOBILE APP UI DESIGN

AIM:

The aim is to design and compare different mobile app UI layouts for a fitness tracker using varied color themes, and evaluate user feedback based on visual appeal, usability, and readability.

PROCEDURE:

Step 1: Create Design

Use design tools like **Figma / Adobe XD / Photoshop**.
Design a mobile app interface for a fitness tracker dashboard.

Step 2: Base Layout Design

- Add user profile section
- Display daily steps count
- Show calories burned and heart rate
- Include activity progress chart
- Add CTA button: **Start Workout**

Step 3: Create Colour Variants

- **Layout 1: Dark Theme (Black + Red accents)**
- **Layout 2: Light Theme (White + Blue accents)**
- **Layout 3: Neon Theme (Dark + Neon Green highlights)**

Step 4: Export Designs

Export all layouts as images/screens for comparison.

Step 5: Collecting User Feedback

Google Form Link:
https://forms.gle/exampleFitnessUI

USER FEEDBACK:

Layout 1 (Dark Theme):

- Looks professional and sleek
- Easy on eyes in low light
- Some elements not clearly visible

Layout 2 (Light Theme):

- Clean and simple design
- High readability
- Slightly less engaging visually

Layout 3 (Neon Theme):

- Very attractive and modern look
- Best visibility of key metrics
- Highly engaging interface

FINAL RECOMMENDATION:

Preferred Layout: Layout 3 (Neon Theme)
Reason: Offers the best combination of visual appeal, clarity, and user engagement.

RESULT:

The fitness tracker mobile app UI designs were successfully created and evaluated. The neon-themed layout was found to provide the best usability, readability, and overall user satisfaction.
